re: Rocanville Corporation; Black Rock Quarry; S/027/088; Millard County, Utah

Dear Tom:

Enclosed is a Notice of Intention to Commence Large Mining Operations (NOI) for the Black Rock Quarry presently operated by Rocanville Corporation as a small mining operation under Division of Oil Gas and Mining permit number S/027/088. The NOI includes the document, Maps A through G, and Appendixes A, B, C, and G. Map A; Location Map is being sent uncomplete. The property boundary information is not yet available to the permit writer. Appendix D; soil analysis is not yet available. Appendix E; recommended seed mixture is not yet available. Appendix F; air quality permit is not available. The operator has submitted an application for an air quality permit to the Utah Division of Air Quality.

One copy of the NOI with currently available maps and appendixes is being sent to Jerry Mansfield of the Bureau of Land Management in Fillmore, Utah.

When information needed to complete Map A has been received, Map A will be completed and forwarded to you. Information needed for Appendixes D, E, and F is not expected anytime soon, but they should not significantly affect your ability to review and comment on the completeness of the main portion of the NOI application.

Sincerely,

*David J. Ryzak*

David J. Ryzak
